

03 License

Information about licenses is in the menu **Server => License**

Customer - customer identifier for which the license was issued. Used when creating a domain.

Users - number of users created using this license.

Limit - The maximum number of users that can be created in this license.

Issued - date of issue of the license.

Expire - license expiration date.

If the license expires after 60 days, the entry is highlighted in yellow. If after 30 days or less - red.

Using the **Barcode Scanner icon**, you can either obtain or renew the license online by specifying the customer key (Customer ID).
