

# Webitel 3.9.x release notes

We are pleased to announce the new release of **Webitel 3.9!**

In this release, we changed the format for storing historical data about calls. This will allow more flexibility to create the necessary reports in Kibana. As a bonus, [Kibana](#) comes with new reports out of the box. A more detailed description can be found on the [Dashboard](#) page.

We expect your wishes for the further development of the new functionality on [Customer portal](#).

Updated to the latest stable versions of [Docker 18.03.0-ce](#), [FreeSWITCH 1.6.20](#), [Elasticsearch 6.2](#), [Kibana 6.2](#) [NodeJS 9.10](#).

Thanks to the **whole team** that worked on this release.

[Vitaly Kovalyshyn](#), CTO

## v3.9.0 - April 2, 2018

The release contains new functionality. About 30 User Story and about 70 Bug Reports are closed.
