

Create users

Webitel users have [predefined roles](#):

- **admin** - can create other users within your domain. Can create and modify call routes.
- **user** - ordinary telephony user.

You can create new roles in the section [04 Access Control List](#).

Open the [06 Directory](#) section and add a new user:

Your browser does not support the HTML5 video element

[Create users using the REST API](#)
