```
{
   "recordSession": {
       "action": "start",
       "type": "mp3",
        "stereo": "true",
        "bridged": "true",
        "minSec": "2",
        "followTransfer": "true",
                "email": ["office@webitel.com", "admin@webitel.com"]
   }
}
```

Value	Description
action	start or stop record session.
type	File format: mp3 for an audio or mp4 for an video calls.
stereo	Record leg A and leg B streams (i.e. the caller is recorded to the left channel and the reciever is recorded on right channel) into different channel in a stereo file.
bridged	Record session only when the channel is bridged.
minSec	Sets the minimum recording length. Normally a recording must be at least 3 seconds long. If a recording does not meet the minimum length, it is deleted after being recorded.
followTran sfer	If you want the call recording to continue after transferring, set variable to true.
email	Send recorded file to the Email. (optional)
